Encl: As above

India, Australia to speed up trade deal after polls

Pact may include deeper market access and outcomes in digital trade & goods

New Delhi, 3 May

ndia and Australia are planning to "quickly and extensively" engage on a comprehensive trade deal "as soon as possible" after the Lok Sabha elections in India, sources told Business Standard.

The Comprehensive Economic Cooperation Agreement (CECA), or the comprehensive trade agreement, could include deeper market access and outcomes in areas including digital trade, goods, services, rules of origin and government procurement, and cooperation.

India has plans to be at the centre of supply chains of the future and a comprehensive partnership with Australia will assist the country, given the complementarities of "our two economies", sources on the Australian side familiar with the matter said.

CECA negotiations began in February last year, nearly two months after the signing of the interim trade agreement, also known as the Economic Cooperation and Trade Agreement (ECTA). The two countries had signed the ECTA in April 2022. It kicked in later during the year — from December 29.

ECTA progress

In the first year of the agreement — January-December 2023 — India's commerce department data showed that during 2023 (January-December), goods exported to Australia saw a 6.6 per cent contraction at \$7.7 billion. The dip, however, was mainly on account of external factors. Imports from Australia also con-

INDIA-AUSTRALIA **TRADE IN CY2023**

Exports	7.7	-6.6			
Imports	16.5	-16.4			
Trade balance	-8.7				
Source: Commerce department					

tracted 16.4 per cent year-on-year to \$16.5 billion.

Despite the dip, some sectors saw robust growth in exports. Sources on the Australian side said the country's imports of Indian agricultural products were up 15 per cent.

Australian imports of Indian industrial products were also up. For instance, imports of iron and steel products were up 16 per cent to \$322

million. Apparel imports grew 6 per cent to \$342 million and jewellery shipments to India saw 6 per cent growth to \$169 million, sources said.

Australia and India's chief negotiators for the CECA met in Canberra earlier this week. That apart, Commerce Secretary Sunil Barthwal, along with a team of officials, travelled to Australia to hold the India-Australia ECTA Joint Committee Meeting (JCM).

"This was an important demonstration of both sides' commitment to a successful implementation of the ECTA, for mutual benefit, and an opportunity to celebrate growth in trade opportunities for both sides. The ECTA is working for Australia and India ...Both sides want to build on positive outcomes of the ECTA, and recognise there is so much potential for growth in the bilateral economic partnership," an official said.

Electoral...

However, there are others who have shown willingness to enter difficult battles to protect family turf. In Himachal Pradesh's Mandi, Congress legislator Vikramaditya Singh has plunged himself into a tough contest against the BJP's Kangana Ranaut. It is a seat represented in the past by Vikdramaditya's father, former Himachal CM Virbhadra, and his mother, Pratibha.

There also are some seats where family members are contesting against each other. Andhra Pradesh's Kadapa is witnessing a fight between cousins - the Congress' Y S Sharmila Reddy and the YSR Congress Party's (YSRCP's) Y S Avinash Reddy. Sharmila's father, Y S Rajasekhara Reddy and brother Y S Jaganmohan Reddy, have represented this seat in the past.

In Maharashtra's Baramati, incumbent Supriya Sule faces her sister-in-law Sunetra Pawar This was the index's highest management from accessing in a battle that could decide whether she or her cousin Ajit Friday, FPIs sold shares worth Pawar gets to inherit the mantle of Sharad Pawar.

There are also instances of incumbents switching parties when denied a ticket — Rahul Kaswan of Churu, for instance. His father Ram Singh Kaswan represented the seat on four occasions, as did Rahul Kaswan in 2014 and 2019, both as BJP candidates. For the 2024 Lok Sabha polls, Rahul is as a Congress candidate after the BJP denied him a ticket.

The Nehru-Gandhi family, as party sources pointed out, has had a closer association with the Rae Bareli constituency than Amethi. The beginnings of the family's association with Amethi, however, was unfavourable. In his electoral debut in 1977, Sanjay Gandhi lost from Amethi, as did all other candidates of his party, including his mother. He, however, persisted with Amethi, winning in 1980. Later, Rajiv Gandhi won from Amethi in a bypoll, and again in 1984, 1989 and 1991. In 1999, Sonia Gandhi made her electoral debut by contesting from Amethi, in addition to Karnataka's Bellary, deciding later to retain Amethi and vacating the Bellary seat.

Services...

The latest round of RBI's survey of Professional Forecasters on Macroeconomic Indicators projects the CAD to GDP ratio at 1.2 per cent and 1.1 per cent for FY25 and FY26.

Gaura Sengupta, economist at IDFC First Bank, said slowdown in services export growth was countered by decline in services imports. "Balance of payment details indicate that the slowdown in services export growth was led by a decline in transport services and fall in software services and professional services. Meanwhile, the decline in serv-

ices imports was due to con-

traction in transport services,"

she added.

For FY25, Dasgupta said services surplus was expected to remain on the stronger side with the rise of global capability centres (GCCs) supporting professional services exports. "However weakness in developed market growth, especially the US, is expected to weigh on software services exports. Overall we expect some moderation in services surplus in FY25," she said.

While software exports dominate India's services exports, "other business services" that includes exports by GCCs have seen a strong rampup recently, accounting for 25.4 per cent of the total services exports in the December quarter of FY24 from 24.1 per cent during the same period a year ago. During the same period, the share of software exports in overall services exports declined from 48.1 per cent to

close in two months On ₹2,392 crore.

"At historic highs, there is always some nervousness and people watching over their shoulders to see who is rushing through the door. They want to book profits at the earliest sign of trouble. We have simmering tensions in the Middle East and rising US inflation," said UR Bhat, co-founder of Alphaniti Fintech.

"The only relief the market got this week from the Fed was that there won't be any hike in the interest rate. If interest rates continue to be high in the US, the FPI interest in emerging markets will continue to be at risk," said Bhat.

Over half of the decline in Sensex was contributed by RIL, L&T, and HDFC Bank.

"Moving forward, the ongoing results season will be detrimental for investors to align their portfolios. The market will also remain vigilant about the BoE policy and GDP data from the eurozone. We expect a degree of consolidation in the market due to expensive valuations and any election-led jitters," said Vinod Nair, head of research at Geojit Financial Services.

Adani stocks...

Other group firms (Adani Green Energy, Adani Power, Adani Ports & SEZ, Adani Wilmar, Adani Total Gas, and Adani Energy Solutions) in separate exchange filings also disclosed the receipt of similar notices "with regard to the transactions entered in the earlier years with certain parties, essentially, from a substance-

over-form perspective." None of the firms provided details of the allegations or names of the related-parties involved. Sebi has been probing the Adani group after a report by Hindenburg Research alleged violation of RPT norms, circumvention of minimum

public shareholding norms, improved use of tax havens, and stock manipulation.

Legal experts said the allegations don't seem to be very serious in nature and, hence, the markets have taken it in their stride. They added that violations of Listing Obligations and Disclosure Requirements Regulations can often be settled under the consent route or attract minimal penalties.

"A show cause notice from Sebi isn't a conviction; it's a legal notice. If the regulator is satisfied with the response, the matter usually concludes there. However, if unsatisfied, Sebi may proceed with conviction. Generally, for first-time violations, Sebi tends to be lenient, imposing fines ranging from ₹25,000 to ₹5 lakh. Subsequent violations may incur harsher penalties," said Jidesh Kumar, managing partner at King Stubb & Kasiva, Advocates and

Experts said in the case of serious violations, Sebi can even bar the company or the aircraft. The Delhi HC, on April the capital markets. They said the regulator can serve more notices if pending investigations reveal further violations.

"The allegations are that the company has not obtained the requisite approvals, and have not made the required disclosure in the financial statements/ annual report (ii) Not recalling security deposits against terminated contracts leading to not using the funds for company's core business purposes and thus not complying with the company's code of conduct. The amounts dues in respect of these transactions along with interest thereon have been received in full before March 31, 2023, and there are no transactions with these parties in the current financial year and there are no losses suffered by the compa-

ny," said Adani Ports. It further said that it has already replied to Sebi and "the company has denied the charges in its entirety, inter alia, on the basis that these transactions are in full compliance with the prevailing laws and regulations".

Adani Wilmar said the SCN received from Sebi was related to "validity of peer review certificate (PRC) of the predecessor auditor in earlier financial year, which the company has responded to".

Following the Hindenburg Research's allegations against the group in January 2023, the group initiated an independent review by a law firm of the transactions mentioned in the report. It said the assessment confirmed that "none of the alleged related parties mentioned in the SSR were related parties to the parent company or its subsidiaries, under applicable frameworks; and the parent company is in compliance with the requirements of applicable laws and regulations".
